

THE SEARCH FOR THE SMARTEST PERSON ON EARTH

An international contest for the intellectually gifted ending in the wake of a perfect score. The demigod with the highest raw score will be declared official winner, or: ALPHA MIND.

WORLD I.Q. CHALLENGE

Designed by Brennan Martin

This experimental high-range I.Q. test (Gc) aims to measure the heavens of human intelligence. Standard psychological tests are inadequate and undesirable for measuring super high genius I.Q.s.

For rarefied individuals gifted with extremely high intelligence, innovative and revolutionary tests must be utilized in order to measure them.

To that end, this painstaking and severely difficult test is the result.

INSTRUCTIONS:

- (1) Registration (scoring) fee is \$25 (USD).
- (2) One attempt only per person is permissible.
- (3) Answers to verbal questions are a single word.
- (4) Answers to verbal questions **MUST** be printed in UPPERCASE.
- (5) Every question has exactly one clear, precise and complete answer.
- (6) Requisite knowledge for numerical questions is moderate. Not easy.
- (7) Numerical questions are solved mathematically. No verbal reasoning.
- (8) No penalty for incorrect answers. Take an educated guess when unsure.
- (9) One point is earned per correct answer. The maximum possible score is 15.
- (10) Alternative answers will not be scored. Submit one answer for each question.
- (11) Misspellings are technically incorrect. Zero credit is awarded for any such thing.
- (12) Supplementary remarks and critical suggestions are welcome with one's submission.
- (13) Reference materials are allowed. This precludes help from other people. Workalone.
- (14) Additions or corrections to answers once submitted are not possible. Choose carefully.
- (15) There is no enforceable time limit, but ten hours minimum investment is recommended.

HOW-TO PRINCIPLES:

- (1) **Solving an analogy:** FEATHER is to (:) PENNIFORM as (::) PAINTBRUSH is to (:) PENCILIFORM.
- (2) **Solving an association:** (SCANDINAVIA, EXTRATERRESTRIAL, SKIING) resolve to (:::) NORDIC.
- (3) **Solving a sequence:** 3, 1, 4, 1, 5, 9, (2). Remark: Digits of Pi.

SUBMISSION PROCEDURE:

(1) In order for submissions to be officially registered: the required forms 'biographical data and registration' and 'prior test scores for norming and standardization' need to be completed and duly sent with the 'answer sheet', and test fee payable via PayPal to:

BRENNANHARPERMARTIN@GMAIL.COM

(2) Score report (containing raw score and preliminary I.Q. score for N = 30) follows by e-mail normally within two weeks. Prior supervised and experimental test scores data is appreciated, as applicable. Please read the TERMS OF SERVICE POLICY for more information.

PUBLICATION POLICY:

(1) Publication and distribution of any answers of this test by any person, on any medium, regardless of correctness, will result in legal prosecution through the NZ Magistrates' Court.

(2) Publication of test content without the author's written consent will also incur prosecution.

LEGAL DISCLAIMER:

(1) This unsupervised, proto-scientific test should be viewed as an estimate of one's crystallized mental potential. Questions are not culture-fair in the strictest sense. No claims about the accuracy, reliability or validity of this test or its author are to be made, expressed or implied.

(2) One's results should not to be interpreted in a health, medical or psychological context.
